## INTERNAL WIRING

Re: Village of Richfield Hall Renovation

After reviewing the set of prints for the renovation of the Village of Richfield old administration building, here is the quotation for installing the voice and data cabling.

1. Install (85) voice and data station locations consisting of two category #5e data Cables per location.
2. The data cables will be homerun back to room 136 and terminated on two 48-port category #5e patch panels with a 7' floor mounted rack with cable management.
3. The voice cables will be installed back to room 111 and terminated on 66M150 blocks. These locations will be terminated with one RJ11 voice module and one RJ45 data module with a duplex faceplate at the users end.
4. Install one 12-strand multi-mode outdoor rated fiber between the police station and the renovated building. This fiber will be homerun to room 136 and terminated in a rack mounted 12-port fiber shelf. The other end at the police side will be terminated in a wall mounted fiber box. The fiber will be terminated and tested to specification with documentation.

This work will be performed per our walk through and discussion with Walt Gambert and as per DRAWING EH + EL6 w/ REVISION DATES 3/1/05
