

Our Vision • Our Community • Our Plan

Please Join Us to Share Your Ideas for the Future of Richfield!

VISIONING EXERCISE

Visioning is a technique that offers communities a way to promote great awareness of change, deepened citizen involvement, and a stronger sense of control over a community's future. The Village of Richfield has many great assets and through this process we hope to learn more about the residents' desires for the future. This is a unique opportunity to add your voice and ideas to the efforts to build a better Richfield community.

BACKGROUND

The Village hired Kleinfelder to work with a Steering Committee comprised of community members to complete an update to the Comprehensive Land Use Plan. A Comprehensive Land Use Plan is a document created through a public process that determines community goals and aspirations relative to community development. The Plan also assists with public policy formation related to all aspects of the community including, but not limited to, current/future land use, housing, connectivity/transportation, sustainability/resiliency, parks/recreation/open space, cultural/natural resources, community facilities, community branding, economic development, infrastructure/utilities, public service/safety, quality of life, innovation/technology, property maintenance/enforcement, and downtown revitalization/historic preservation.

We look forward to seeing you at this important event!

The Comprehensive Land Use Plan Steering Committee
Michael Lyons, Chair
Teri Moran, Vice Chair
